

SAMPATROPY-A·TN

- Jasmine Flower extract -

Elegant flower that blooms prettily, "Jasmine", for cosmetic active ingredient. Through a quality assurance technology system certified by ISO 9001:2015, jasmine extract with high quality and safety from Technoble was born.

Blooming prettily with a sweet scent,
elegant flower, "Jasmine"

Story of Jasmine

Jasmine is a common name for plants of genus *Jasminum* in the olive family (Oleaceae), which contains about 200 species known worldwide. The blooming of jasmine flower starts even before dawn, making the pretty flower blooming in a cool darkness having an mysterious aura. Many Jasmine flower variants are called "scent queen" because of their sweet and elegant scent. Jasmine essential oil (Jasmine Absolute) is extracted from jasmine flowers, and is used for fragrance in cosmetics and alcoholic beverages. Jasmine Absolute is extracted with a ratio of 1 kg extract to 1 t flowers, making it an extremely expensive fragrance.

Jasmine tea is a widely known flower tea, where one variant of jasmine plants, Arabian jasmine (*Jasminum sambac*) is added together into the tea as a fragrance.

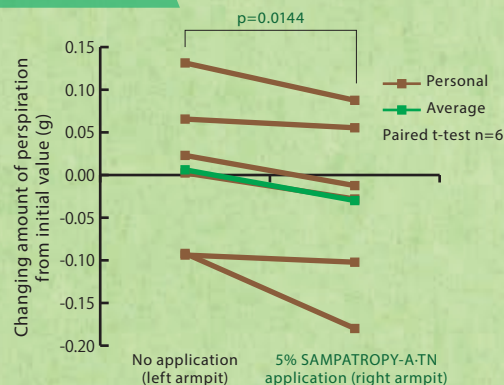

The main components responsible for jasmine's scent differ depending on the variant, but it is said to be benzyl acetate, linalyl acetate, and methyl jasmonate. Smelling the scent brings happy feeling, restores bad mood, also relieves headache and frustration caused by emotional stress.

Extricate skin from discomfort feeling by excessive sweat
Anti-perspiration effect of SAMPATROPY-A·TN

Efficacy of Jasmine

Jasmine is known as the "scent queen" because of its sweet and elegant scent. We investigated whether there is an effect on the scent other than the scent component, and we focused on sweat, which is one of the causes of unpleasant odor. Most of the sweat is water, but a small amount of ammonia contributes to the sweat odor. Therefore, we evaluated the antiperspirant action of SAMPATROPY-A·TN made from jasmine.

As a result, it was confirmed that SAMPATROPY-A·TN has an excellent antiperspirant effect. This suppresses excessive sweat secretion.

Product information

About Arabian jasmine

Scientific name	Jasminum sambac
Common name	Arabian jasmine
Other name	Sampaguita
Remarks	-

Efficacy

Anti-perspiration effect

INCI name	Chinese name*	CAS No.
Jasminum Sambac (Jasmine) Flower Extract	茉莉花 (JASMINUM SAMBAC) 花提取物	91770-14-8

*Listed in IECIC2015

Storage condition Recommended	Please store in dark place at 15-25°C
Application	Skin care, Make up, Hair care, Sun care
Safety	Safety test (human patch test etc.) conducted. Please contact us for more details.

製品情報

マツリカについて

学名	Jasminum sambac
一般名	マツリカ
その他の名称	サンパギータ
備考	-

有効性

制汗効果

化粧品表示名称	医薬部外品表示名称
マツリカ花エキス	マツリカエキス

保管条件	暗所、常温(15~25°C)で保管してください
適用	スキンケア、メイクアップ、ヘアケア、サンケア
安全性	ヒトパッチテスト他、規定の安全性試験を実施し、 問題ないことを確認済み。詳細はお問い合わせください。
